

Some Surprises Are Fun!! and Make Us Feel Good

Other surprises are not fun.

In fact, they can be painful or even deadly.

For example, being surprised by a hazard or harmful situation when you're traveling.

There's a surprise you don't want!

Doing a pre-trip check can keep those type of surprises from showing up. You can't be surprised by something you know about before it shows up.

That might ruin a "surprise party" but when it comes to traveling, all it will do is help you get to your destination safely.
